Why The Market People?

- Your market will be listed across the wide network of events websites that utilise our iFrame.

- We automatically notify all the registered traders and market goers whose notification settings match your event.

- Unlimited listings with free proofreading and editing on request.

- Event cloning capabilities for faster future listings.

- When you register as an Operator with The Market People, you become eligible to claim your free iFrame that can be embedded into your website – which means that days of multiple event listings are over!

  For more details visit our 'What is an iFrame?' page.

- A QR code generated automatically each time you register a new market or event, ready to be included in all your publications

  For more details visit our 'What is a QR Code?' page.

It's FREE you can't beat FREE

Need Traders?

Notification of your market is sent to all our registered and vetted traders who hold a valid Market PASS ready for them to send their stall info over for your perusal.

For more details visit our 'What is the Market PASS?' page.

Registered Traders can also choose to advertise your market on their public profile.

Need an Extra Marketing Boost?

Along with our nationwide network of journalists we have developed a database of all the major and local event listing websites across the country and seek out all the major social media influencers in your target area to give your market explosive exposure at a snip of the price of even local advertising mediums.

We also offer a professional profiling service including biography writing and event photography, providing your market with a press pack to be proud of.
